

On the morning of November 4th, 2020 I knew there was something immeasurably amiss with our election process. Since that time, I've become a human sponge on soaking up as much as I can about what happened before, during & after the November 3 election.

As much as we'd like to extend conveniences for voting and encourage participation, what's proposed in SB184 & HB5262 takes all security "guard rails" away from the process!

For starters, our voter rolls are a MESS! There's a wonderful organization here in CT that's been investigating election integrity for several years. They estimate over 400,000 of the 2,500,000 registrations on the rolls are bogus. The fact that some 200,000 of the absentee ballots sent out in 2020 were returned as undeliverable speaks LOUDLY to this issue!

When you add in any-excuse absentee voting WITH no signature verification, you have an election that can easily be compromised. CT voter rolls + flooding the market with ballots + any-excuse absentee voting + no signature verification = INSANITY!

I wholeheartedly OPPOSE these bills.
